

When have you personally experienced supernatural physical or spiritual healing in your life (personally or as a witness)? Share one example with your group to exalt Christ.

3. APPLY THE TRUTH

After forty plus years the lame man had most likely given up any hope of actual healing, but God still had a plan to heal him. Where have you given up hope for healing in your life? What needs to be healed in your life, but you have stopped or never started praying for it because you doubt God will do it? It could be physical or spiritual. It could be for you personally or someone you care about.

4. COMMIT THIS WEEK

Read James 5:13-18. These verses tell us to pray for healing. They also tell us to confess to one another and pray for one another. They also promise that the prayer of the saints has great power in Jesus' name. And finally, that we should pray boldly and fervently like Elijah, the man of God. So let's commit to do this individually and together. Commit to pray for healing over what you wrote above. Also take time in your Small Group to share where you need healing and pray for one another.

SMALL GROUP APPLICATION QUESTIONS

1. REVIEW THE SERMON

Read Acts 3:1-4:4. What are the 3 types of help/healing portrayed in this passage? How do humans and God think the same and differently about each level? How should this impact that way we pray for healing in our lives?

What does this passage teach us about God healing and how does this fit with holistic biblical theology of healing? How have you come to better understand God healing?

2. ASSESS YOUR LIFE

Think about your past prayers for help or healing (for you or someone else). How do they align with what the Bible teaches about God healing? How do you need to change the way you approach God in this area of prayer?
