1. STUDY THE SCRIPTURE

Read Nehemiah 9:1-37. Confession of sin holds a prominent place in the revival of worship amongst God's people in Nehemiah. What led to their confession and what important characteristics of biblical confession do we see in this passage?

What is the main emphasis of their prayer in verses 5-31 and how does this relate to worship and humility? What conclusion does this time of worship and confession lead the people to? How does this relate to us today and the Gospel?

2. ASSESS YOUR LIFE

How has this passage changed or deepened your understanding of biblical confession versus "worldly" confession? When have you experienced "worldly" confession and biblical confession in your life? What role did God's Word play in those confession experiences? Do you currently have any sin that needs biblical confession?
