

Joseph's folly is less clear, but it definitely revolved around his lips and speech. What did you think about Pastor Micah's 3 questions to guard our tongues? Did you agree or disagree with them and why? It is interesting that Jacob rebuked Joseph, but also didn't dismiss his dream. The issue was not what he said, but how he said it. When have you experienced truth being clouded by how it was communicated?

Joseph's brothers got the short end of the stick in the family situation, but this did not justify their response. When have you been the victim of someone else's folly and responded in sin like his brothers? How did your response lead to greater folly and fallout in the situation? How can forgiveness neutralize folly?

3. APPLY THE TRUTH

Reflect on how God has used folly to bring about favor in your life. How can this fuel your worship of Jesus?
