

When Joseph names his sons he speaks of forgetting. What is he actually forgetting and not forgetting in this story and how do you know? Why is it important we don't try to forget or ignore our past? How have you seen God work in your life to bring healing and deliverance from your past? How can God use your past to bring growth in the present?

Despite His new found power and position, Joseph did not forget about God's plan. What is the universal mission God has given to all believers? What are some specific applications for the mission in your life? How can your own conversion and faith journey help you fulfill God's mission? How can He use your past to further His mission?

3. APPLY THE TRUTH

Remembering God's faithfulness is key to following Him with a faithful heart. How has God shown you His faithfulness? Write down your examples and praise Him for them.

SMALL GROUP QUESTIONS

1. CONNECT TO THE TEXT

When have you forgotten something important and how did it impact you? How does remembering things from your past influence you in the present (good or bad)? Can you share a specific example?

2. ASSESS YOUR LIFE

Read Genesis 41:37-57. Joseph's rise to power was meteoric and he was only 30. Can you think of others in our history or culture who quickly rose to fame or power? How did they handle it? How did it change who they were? What evidence do you see that Joseph did not let it go to his head? Have you ever received a gift or blessing from God and got so caught up in the gift that you lost some of your connection with God?
